A

Ability of glucagon to produce cardiac stimulation without arrhythmias in halothane-anaesthetized animals. KATZ, R. L., HINDS, L., MILLS, C. J. 574
Acid-base balance in blood. MORGAN, H. G. 196
Acid-base changes in cerebrospinal fluid. CAMERON, I. R. 213
Acid-base and urine pH changes following mitral valvotomy. GRIGOR, K. C., HENDRY, J. G. B. 25
Acute epiglottitis in children: a respiratory emergency. RAJ, P. P., LARARD, D. G., DIBA, Y. T. 619
Acute pulmonary oxygen toxicity: a pathophysiological study at 1 and 2 atmospheres absolute (ATA) in spontaneously breathing anaesthetized dogs. CLARKE, G. M., SANDISON, A. T., LEDINGHAM, I. McA. (*ARS*)558
ADAMS, A. P., MORGAN, M., JONES, B. C., MCCORMICK, P. W. Case of massive aspiration of gastric contents during obstetric anaesthesia: treatment by tracheostomy and prolonged intermittent positive pressure ventilation 176
—— Massive aspiration of gastric contents during obstetric anaesthesia (*C*)715
Adrenaline infiltration in vaginal surgery: a statistical analysis of the effect on operative blood loss during methoxyflurane anaesthesia. SCHROEDER, H. G., EVANS, J. M. 609
ADRIANI, J. (ed.). *Appraisal of Current Concepts in Anesthesiology* (*R*)226
Ageing and epidural dose requirements: segmental spread and predictability of epidural analgesia in youth and extreme age. BROMAGE, P. R. 1016
AIRAKSINEN, M. M.; see TAMMISTO, T.
ALLGOWER, M. (ed.). *Progress in Surgery*, Vol. 6 (*R*)452

Anaesthesia, dental:
Intravenous; see SHAFTO, C. E.
Methoxyflurane; see GOLDMAN, V.
Anaesthesia for Caesarean section: a comparison of thiopentone and propanidid. BRADFORD, E. M. W., MOIR, D. D. (*C*)274
Anaesthesia for Caesarean section. BRADFORD, E. M. W., MOIR, D. D. (*C*)641
Anaesthesia for Caesarean section. MUSSALI, N. G. (*C*)561
Anaesthesia for children:
Bronchial blocking; see LINES, V.; VALE, R.
Burns dressings; see BASKETT, P. J. F.
Cardiac; see NICHOLSON, J. R.
Dental; see SHAFTO, C. E.
Premedication; see GORDON, G. H.
Anaesthesia in the dark. LEE, J. A. (*C*)641
*Anaesthetics*. VAUGHAN, A. B. (*R*)855
Anaesthetic-induced malignant hyperpyrexia and a method for its prediction. HARRISON, G. G., SAUNDERS, S. J., BIEBUYCK, J. F., HICKMAN, R., DENT, D. M., WEAVER, V., TERBLANCHE, J. 844
Anaesthetic induced malignant hyperpyrexia. HARRISON, G. G., SAUNDERS, S. J., BIEBUYCK, J. F., HICKMAN, R., TERBLANCHE, J., WEAVER, V., DENT, D. M. (*C*)1062
Anaesthetic management of haemothorax and haemoptysis due to von Willebrand's disease. BOWES, J. B. 894
Anaesthesia for neurosurgery:
Circulation and respiration; see LALL, N. G.
Controlled ventilation; see DALLAS, S. H.
CSF pressure; see FITCH, W.
Halothane; see Editorial; CHRISTENSEN, M. S.; FOSTER, B.; JENNETT, W. B.; JOHNSTONE, M.; LASSEN, N. S.; MILLAR, R. A.
Methoxyflurane; FITCH, W.
Posterior fossa surgery; TEIJEN, H. J.
Anaesthesia for obstetrics:
Caesarean section; see BRADFORD, E. M. W.; FARMAN, J. V.; MUSSALI, N. G.; TOLDY, M.
Cardio-respiratory function; see SCOTT, D. B.
Epidurals; see DOUGHTY, A.; THOMAS, J.
Flying squad; see DAVIES, C. K.
Placental transmission; see Editorial; CRAWFORD, J. S.; THOMAS, J.

# NOTICE TO CONTRIBUTORS

This Journal is for the publication of original work in all branches of anaesthesia, including the application of basic sciences. Two issues each year deal mainly with material of educational value.

*Papers.* Papers are accepted on the understanding that they have not been and will not be published in whole or in part in any other journal. They are subject to editorial revision. Manuscripts should indicate the title of the paper, the name, qualifications and full address of the author, and be in double-spaced typing on one side only of quarto paper with a wide margin.

*Abbreviations, Weights and Measures.* Abbreviations should follow the convention adopted by the *Journal of Physiology*. Weights and measures, dosages, etc., should be expressed in the metric system.

*Tables.* All tables should be on separate sheets and be capable of interpretation without reference to the text.

*Illustrations.* Photographs should be unmounted, glossy prints. Drawings, charts and graphs should be in black indian ink on white paper. All illustrations should be clearly numbered with reference to the text on the back and should be accompanied by a suitable legend. The name of the author and title of the paper should also be written on the back of the illustrations.

*References.* There should be a table of references at the conclusion of the paper. These references should be arranged according to the Harvard system and in alphabetical order. Abbreviations in the references should be according to the World List of Scientific Periodicals.

In the Harvard system, in the text the year of publication must follow the author's name, more than one paper in any one year being indicated by a small letter (a, b, c) after the date. In the references, the order should be: author's name, followed by initials; year of publication in parentheses; title of paper to which reference is made; title of publication underlined with a single line (to indicate italics) and abbreviated in accordance with the World List of Scientific Periodicals; volume number in arabic numerals, underlined with a wavy line (to indicate bold face); the number of the first page in arabic numerals; thus: Howell, T. H., Harth, J. A. P., and Dietrich, M. (1954). The use of chlorpromazine in geriatrics. *Practitioner*, **173**, 172.

In the case of books, the reference should be as follows: name of author and initials; year of publication in parentheses; title of book; number of edition; page number; town of origin, publisher; e.g., Hewer, C. L. (1948). *Recent Advances in Anaesthesia and Analgesia*, 6th ed., p. 120. London: Churchill.

The *British Journal of Anaesthesia* should be referred to in the references as *Brit. J. Anaesth.*

*Proofs.* Proofs will be sent to all contributors. These should be corrected and returned to the Editor within forty-eight hours.

*Reprints.* Twenty-five reprints of articles will be dispatched to the authors after publication. Further reprints can be supplied if application is made on the order form attached to the proofs. *This form should be returned to the Editor with the proofs.*

*Copyright.* Papers which have been published become the property of the Journal and permission to republish must be obtained from the Publishers.
